## Bar Markings

# How to Identify

## PACIFIC STEEL™ Products

Our bar markings assist builders, specifiers and inspectors in identifying our products as being New Zealand made product, produced by Pacific Steel (NZ) Ltd to AS/NZS 4671. To ensure all the steel on your site is made by Pacific Steel, to our local standards, be sure to look for either our 'PACIFIC™' brand or the Dot/Dash combinations.

### Grade Markings

Our unique bar markings allow users to quickly identify if their product is a PACIFIC STEEL™ grade 300E or 500E product:

- » **Deformed 500E** products have '500E' rolled into the bar, two longitudinal ribs and a missing transverse rib before the 'PACIFIC™' mill mark.
- » **Plain 500E** products have a dot and two dashes rolled into the bar.
- » **Deformed 300E** products have '300E' rolled into the bar and two longitudinal ribs before the 'PACIFIC' mark.
- » **Plain 300E** products have two dots rolled into the bar

### Mill Markings

All PACIFIC STEEL™ grade 500E and 300E products by Pacific Steel are rolled with our unique mill bar markings to assist in identification on site:

- » **Deformed bars or coils** have our mill mark, 'PACIFIC™', rolled into the bar surface.
- » **Plain bars/coils** (as typically used by mesh manufacturers) have either 2 Dots, or a Dot and 2 Dashes.

### REIDBAR™ Markings

All PACIFIC STEEL™ grade 500E REIDBAR™ products are rolled with a short transverse rib on one side of the bar in accordance with the AS/NZS 4671 standard.

**IMPORTANT NOTE:** In line with our reinforcing brand update to PACIFIC STEEL™, the historical 'SEISMIC®' bar marking updated to 'PACIFIC™' from June 2024. SEISMIC® continues to be a registered trademark of Pacific Steel (NZ) Ltd, and 300E/500E products featuring the former bar marking may still be observed in the market during this transition and treated as compliant.

NOTE: Buyers and users of Pacific Steel (NZ) Ltd products and services must make their own assessment of the products for their own conditions. All queries regarding product specification, purpose or application should be directed to Pacific Steel (NZ) Ltd, phone 0800 7227 8335. Pacific Steel (NZ) Ltd reserves the right to modify products, techniques, equipment and statements to reflect improvements in the manufacture and application of its products. The information contained in this brochure is supplied without prejudice to Pacific Steel (NZ) Ltd's standard terms and conditions of sale. In the event of conflict between this information and the standard terms and conditions, the standard terms and conditions prevail. PACIFIC STEEL™ and PACIFIC™ are trademarks of Pacific Steel (NZ) Ltd.
